The international panel chosen for the evaluation of the IDPASC-Portugal Doctoral Program fellowships met in the Laboratório de Instrumentação e Física Experimental de Partículas (LIP) in Lisbon on the 16/7/2015 at 2:30 pm. The first session ended at 8:00 pm and the panel met again on the 17/7/2015 at 9:00 am to close the evaluation procedure at 1:00 pm. The panel members Francisco del Aguila, Enrique Zas, José Valle, Marcella Diemoz, João Alves, Andreas Glindemann and Jorge Crispim Romão (President) were present in both sessions. Kostas Kokkotas was not present in Lisbon but connected via skype in the two days of the meeting.

The panel reviewed all the 37 applications present to this call. The procedure followed what was advertised in the terms of the call. Each application was evaluated according to the following three criteria, in a scale from 1 (minimum) to 5 (maximum)

- Merit of the candidate (weight 5)
- Work Plan (weight 3)
- Merit of the Supervisor/Institution (weight 2)

Each candidate was evaluated by two different members of the panel and during the meeting the whole panel discussed each application until a grade was agreed by consensus. Candidates citizens from third States, and not having a residence permit in Portugal, were interviewed individually according to the Regulamento de Bolsas de Investigação Científica da FCT, IP. (Chapter III, Section I, Article 14., nº 1 d). The summary of these interviews was presented to the panel during the discussion.

The quality of the applications to this call was excellent with 14 applications scoring 4.15 or above. The panel recommends that six fellowships should be awarded. The panel also recommends that the applications with a final grade above or equal to 4.15 may be considered to be awarded in case of availability.

The IDPASC-Portugal administration should ask for the appropriate documents to confirm the grades stated as obtained or expected.
